

1. Network Checking:

These 3 domains need to be whitelisted on your proxy because we don't support SSL Inspection nor proxy authentication or firewall.

*It is a requirement that there **should be no SSL inspection** on traffic between sensor and the Cloud and our links are using port 443.

ts01-b.cloudsink.net

lfoup01-b.cloudsink.net

lfodown01-b.cloudsink.net
